**INTRODUCTION OF BUNKER BEDS IN NEW HIGHRISE  
HOSTELS TO FACILITATE THE ACCOMMODATION OF FOUR  
PEOPLE PER ROOM**

---

Reference is made to the above subject.

Please be informed that effective first semester of the 2021/2022 academic year, the University Management will introduce bunker beds in all New Highrise hostel rooms. There will be two bunker beds in each room to accommodate four students. This means there will be eight students per compartment. This has been necessitated by the need to accommodate more students since the University is very far from decent boarding houses in the city centre.

The University will stop providing stoves to students. However, the stoves currently in the kitchens will remain there for students' use. When these stoves become obsolete, the students will buy their own portable two plate cookers.

All students in New Highrise hostels and those wishing to move into these hostels should take note of this important change.
