

# MULUNGUSHI UNIVERSITY

## MEMORANDUM

TO : All members of staff, students and the University Community

FROM : Resident Engineer

DATE : 21<sup>st</sup> July , 2026

---

### NOTICE OF WATER SUPPLY INTERRUPTION

---

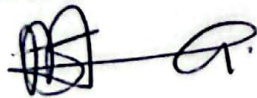

This is to inform all staff and students that there will be an interruption of water supply from **26<sup>th</sup> July to 31<sup>st</sup> July 2026**.

The interruption is necessitated by on-going road construction works being undertaken by **AVIC International** at the **Kabwe Bypass Roundabout**, which has affected the University's main water pipeline.

During this period, water will be supplied on a rationed basis to ensure that all critical facilities and essential services continue to receive adequate water. Staff and students are therefore advised to use water sparingly and store sufficient quantities where possible.

The University is working closely with the contractor to minimise the duration of the disruption and restore normal water supply as soon as the works are completed.

Any inconvenience that may be caused by this interruption is sincerely regretted.

**Eng. Clement Miyoba**
